

PRACTICA 04

Primero crearemos un repositorio público con archivo Readme.

 **New repository**

 

Create a new repository

A repository contains all project files, including the revision history. Already have a project repository elsewhere? [Import a repository](#).

Required fields are marked with an asterisk ().*

Owner *

 ElFerri

Repository name *

practica04

✔ practica04 is available.

Great repository names are short and memorable. Need inspiration? How about [automatic-pancake](#) ?

Description (optional)

☒  **Public**
Anyone on the internet can see this repository. You choose who can commit.

☐  **Private**
You choose who can see and commit to this repository.

Initialize this repository with:

☒ **Add a README file**
This is where you can write a long description for your project. [Learn more about READMEs](#).

Add .gitignore

Choose which files not to track from a list of templates. [Learn more about ignoring files](#).

Choose a license

A license tells others what they can and can't do with your code. [Learn more about licenses](#).

This will set  **main** as the default branch. Change the default name in your [settings](#).

 You are creating a public repository in your personal account.

Luego modificamos algunas de las preferencias.

practica04

Añadimos a nuestro repositorio un archivo.md y sus modificaciones.

The image consists of two screenshots of a GitHub repository named 'practica04' by user 'ElFerri'.

The top screenshot shows the 'Edit' view of the file 'index.md' in the 'main' branch. The file content is as follows:

```
1 # PRACTICA04
2 ![.](https://media.istockphoto.com/id/84806826/es/foto/concepto-de-pr%C3%A1ctica.jpg?s=612x612&w=0&k=20&c=)
3
```

The bottom screenshot shows the 'Preview' view of the same file. The preview displays the heading 'PRACTICA04' followed by an image of a yellow sticky note pinned to a corkboard. The sticky note has the text 'practice... practice... practice...' written on it in a handwritten style.
